Environmental Science (3rd Edition) Student Workbook

Synopsis

BIOZONE's Environmental Science Student Workbook introduces students to the Earth's physical and biological systems, and examines the interactions of humans with their environment. This edition includes a wealth of current content and aligns the workbook to its supporting digital resources. Structured on the APES curriculum and aligned to the IB Environmental Systems and Societies, the comprehensive coverage of this text makes it highly suitable for any high school environmental science course. Content includes the Gulf of Mexico oil spill and the Fukushima Daiichi nuclear disaster, and in-depth coverage of energy extraction issues, pollution, and the wider environmental implications of urban development. The ideal companion to both the APES curriculum and the IB Environmental Systems and Societies.

Book Information

Paperback: 250 pages

Publisher: BIOZONE International Ltd.; Third edition (June 13, 2013)

Language: English

ISBN-10: 1927173558

ISBN-13: 978-1927173558

Customer Reviews

Better than I expected! Most expensive activity books are not worth the money, but this one might actually be worth it.

Great content but for ib Environmental Systems and Societies you have to flick forward and back a bit.
