Customer Reviews

This was a great reference book to show the different styles of each aspect of the game. very interesting to see how the game has evolved not only over time but throughout the world.

My son is really into soccer. So we have been purchasing more soccer books recently. This is a good book for kids that want to learn more facts about soccer

We bought this for my son's 4th grade book report it was just what we needed for a "How To" book report. Great photos.

I bought if for my grandson. He his a soccer player and he loved the book and the DVD that came with it.

Good book for grades 2-5. The DK Eyewitness series is very popular in our school and very

affordable.

Not as appealing as we thought it would be.

This is another present I gave my grandson who is a soccer enthusiast. He loved it and was very grateful that I got it for him.
