Synopsis

Simple network management protocol (SNMP) has been chosen by the Internet Activities Board as the short-term solution for managing TCP/IP based components in the Internet. It is currently the major protocol used to communicate information between network management stations and management agents. This complete guide to the latest SNMP version 2 protocol provides comprehensive coverage of all aspects of the system, including its development and operational features.

Book Information

Paperback: 600 pages

Publisher: Van Nostrand Reinhold (September 1995)

Language: English

ISBN-10: 1850321396

ISBN-13: 978-1850321392

Product Dimensions: 1.5 x 6.2 x 9.5 inches

Shipping Weight: 2 pounds (View shipping rates and policies)

Average Customer Review: 1.7 out of 5 starsÂ Â See all reviewsÂ (3 customer reviews)

Best Sellers Rank: #8,578,251 in Books (See Top 100 in Books) #47 inÂ Books > Computers & Technology > Networking & Cloud Computing > Networks, Protocols & APIs > SNMP #5474 inÂ Books > Computers & Technology > Networking & Cloud Computing > Networks, Protocols & APIs > Networks #9081 inÂ Books > Computers & Technology > Certification

Customer Reviews

Not enough explanation to be a good tutorial, and not well organized as a reference.

The text has too much of description in ASN. The book is not very clear about what it covers. I think the authors should make it clear, whether they are talking about OSI-SNMP or TCP/IP-SNMP.

This is the first time I submit a comment. That is how bad the book is (and I only got to chapter 3). I expected to see information beyond what's in the RTCs such as examples and explanation.There are many instances where the authors list a number of items giving the impression that the following sections will explain each item in detail, and they only have one section explaining the first item and skip the rest.Diagrams also seem to be thrown in randomly as there is no associated text explaining what's being presented.Overall, a bad book due to any combination of these:(1) lack of

understanding of the material and/or (2) lack in the capability to convey the knowledge
