Watch Out! At Home (Watch Out! Books)

Synopsis

When at home, kids are cautioned to avoid playing with sharp objects, to keep a safe distance from things cooking on the kitchen stove, to treat electrical appliances with caution, and generally to keep alert for potential household hazards. Clearly written in brief passages that are easy for younger children to absorb and understand, the Watch Out! series of color-illustrated books give kids safety advice that applies inside and outside the home, while they are traveling in a car, and when they are enjoying nature and having outdoor fun. The lessons illustrated in all Watch Out! books help children identify safety issues and avoid potentially dangerous situations. Appealing cartoon-style illustrations on every page.

Customer Reviews

I purchased this book for the fire department I was with for use in the local schools that the firefighters visit regularly to teach fire, water and home safety. It is a great book for teaching young kids about safety. The kids enjoyed it and they retained a lot of the lessons.

Good little book. It shows everything you can imagine in the home to be cautious of. Knives, hot appliances, outlets and cords, fires, medicine, poisonous chemicals, etc. Cute little book.

My grandson is only 1, I will have to wait before I can read these to him. This whole series is very

instructional, but more elementary level than Kindergarten level.

I bought this book for my niece. It's very informative! It covers all kinds of home safety topics for preschool age children to learn.
