Age Range: 8 and up

Grade Level: 3 and up

## Customer Reviews

The book is thin but chock-full of fun educational experiments and observational activities on plants, short clear explanations and helpful colorful drawings. Perfect introduction to plant science! Item description says age 8+ but even 4-5 yr olds would be able to appreciate the experiments and learn from them. 11-12 yr olds may already find it too easy especially if they've done plant science before. Highly recommended.

good condition.
