Triassic Terrors

Synopsis

Learn all about the terrifying dinosaurs of the Triassic Period with this jam-packed educational activity book. Beautifully rendered drawings, engrossing puzzles, fun facts; it's more than enough to keep any dinosaur-obsessed child occupied for an era of their own. The first in a series of activity books covering the three periods of dinosaur life on this planet, Triassic Terrors will be followed by books on the Jurassic and Cretaceous periods to make a comprehensive series of toothy, gnarly, and brainy fun! With highly detailed, beautifully vivid artwork from the young and incredibly talented British illustrator Isaac Lenkiewicz, and content conceived and written with the consultation of leading dinosaur artist Jon Sibbick and a paleontologist from the University of Cambridge, Triassic Terrors will enthrall children and educate dinosaur crazy kids in equal measure.
