Star Wars Workbook: Preschool Shapes, Colors, And Patterns

Synopsis

The Force is strong with this series! Introducing a line of workbooks that marries the iconic popularity of Star Wars with the unique mix of editorial quality, fun presentation, and rigorous educational standards that Workman applied to the BRAIN QUEST Workbooks. Twelve titles launch the series—three each for Pre-K through 2nd Grade—and dig deep into core subjects, including numbers, ABCs, phonics, and reading readiness for younger grades, and math, reading, and writing for the older ones. The material, which aligns with national Common Core State Standards, is designed to reinforce essential concepts and lessons taught in schools. Any child, not just fans of Star Wars—but yes, those fans will be especially delighted (as will reluctant learners)—will love the series. It is for Anakin approach to phonics. Kids will practice learning numbers by counting and circling X-wing starfighters and clone troopers. Master place values by sorting groups of Wookiees. There are math problems—Yoda is holding 7 lightsabers. 5 of the lightsabers are blue. The rest are green. How many green lightsabers is he holding? And Language Arts—Circle the correct homophone in this sentence: Luke is a Jedi knight/night. Featuring favorite characters like Luke Skywalker, Queen Amidala, Yoda, and Obi-Wan Kenobi, and other creatures, monsters, Jedi, and Sith, the workbooks are filled with thousands of original illustrations drawing from all six Star Wars movies and the expanded Star Wars universe. Learn well, you will.

Age Range: 3 - 5 years

Grade Level: Preschool and up

Customer Reviews

I got a copy of this to review on my blog, and my preschooler and I love it so much I've found myself telling all my friends and family about it! These books are so well done-great variety of activities, and the Star Wars theme really enhances the learning rather than detracting from it. We have used several different workbooks, including some from Kumon and a few other brand, and this is by far my son's favorite. His favorite thing in this workbook was a maze where you had to follow the triangles to get the ewoks to their treehouse :)

My wife teaches kindergarten. She loves these books and so do her Kinders, who get copies of the pages to work on. Educational and topical. Have to get and keep their interest after all. Everyone knows Star Wars!

This series was a huge hit with my grandchildren's mom and dad. They love star wars and my daughter is intending to home school her children so this gives her a head start. The books are full of colorful star wars graphics along with practical lessons. Easy to understand pictures, letters, numbers and shapes create a fun learning basis. Definitely a great gift or purchase.

My three year old loves this workbook. Every page reference Star Wars, so if your little one is not familiar with the names of smaller characters from the movies, some pages may be a challenge. The pattern pages (about a quarter of the book) are the most difficult and make the book worth the money. There are also mazes with instructions like follow the black rectangles in a sea of other black shapes. My daughter enjoyed those pages as well. I give it four stars instead of five because there were too many coloring pages for a workbook.

We bought all three workbooks for ages 4-5. My son loves them. We're homeschooling and these work perfectly for our work box system!

My son loves these! It takes learning to a level that kids enjoy rather than something they hate doing. I highly recommend them.

My preschooler LOVES doing his school using these books! The Star Wars theme really pulls him

in. Makes him feel more grown up like his older siblings I think! :)

I love these books! It's so much easier to teach your kids when you can incorporate things they already love. Need more educational material like this!
