This is not advertised correctly. I thought it was the book PLUS the Study Guide. The description needs to be more clear, I really wanted the book only but purchasing it with the Study Guide seemed even better and now all I have is the Study Guide...

Please note that most of these prayer focused books by Stormie Omartian are offered as (1) a book, (2) a study guide, and (3) a prayer book. The original book is the BEST purchase if you are looking

for just ONE purchase. THIS book is the STUDY GUIDE. It does not contain any prayers or content from the actual book. It is ONLY a book of study questions to act as a companion to the original book. If you are in a study group, looking to lead one, or even if you just want to study more on your own, you want to purchase this in addition to the original book, the study questions make you think and evaluate your relationship with your spouse and focus on improving your prayer life. I highly recommend all of the books; just be aware of which one you are purchasing, each series uses the same cover art on all three books.

This was advertised as the book and the study guide and it's misleading b/c it's only the study guide. Now I need the book and the way is set up my account won't let me buy a "second" e-copy of the same book. Their records show I already own an e-copy of Power of a Praying Wife. So now I'm a little unsure of how to get an e-copy of this book. I'm sure the book is excellent but the study guide alone isn't working for me. I wouldn't have bought this if I'd known it was just the study guide.

I honestly hate doing things like this. I want to see examples, not read about them. I was afraid it would reveal I wasn't being a good wife when in my opinion I was doing everything I was suppose to be doing. I recommend getting the study guide that goes with this. This study guide gives practical points to pray for and digs deeper into certain areas. It revealed areas I needed to pray for and gave me the tools how to pray for these things. This is not guilt or condemnation driven. I do love this study now. It takes the focus off my husband and myself and places on God. God has used this to do major changes in my heart concerning my husband. Honestly, that's what needed to happen. "the problem isn't the problem. It's your attitude about the problem"-jack sparrow. This statement is true in my case. I recommend this to any woman and any phase in marriage who needs extra tools in her marriage tool box. I can't say enough good things about this study. Trials will come and I reference this often to carry me through them. Thank God I have this in my tool box.

The prayers at the end of each chapter in the book are so detailed that it really taught me how to pray better for my husband. She asks thought-provoking questions and I like how she incorporates scripture into the questions and the prayers. I also believe it to be very beneficial how she has you re-write scriptures as prayers inserting your husbands name. I think this is a must read/study. Especially with a group of other wives - you can learn together and from each other.

This book it's such a blessing. And this study guide really brings stormies main points home. My

prayers for my marriage are exponentially better and I already see God answering them. The book also came in a timely fashion.

This book is absolutely amazing! These prayers explain and go into detail far better than I was in my prayer life alone and I have already started to see the fruit of them as well! I have bought this book now for a friend and have suggested it to almost everyone else I hear that has marital issues or even those just wanting a better way to pray for their husband. Its powerful and it WILL change your views on your husband, your marriage, and your prayer life for him!

If you are looking for an honest book about life and issues that you may need help learning how to pray about, then this is it. It truly makes you think and probably saved my marriage. If you have any doubts at all about how to pray for your husband or if you should pray for your husband or even when to pray for him, then this book is for you!!
