Customer Reviews

This is a MUST PURCHASE for anyone fascinated by dinosaurs. The pop-up images of dinosaurs offer a little information about each one and, surprisingly, there is a dinosaur for every letter of the alphabet! Many readers will come across a few dinosaurs that they have probably not heard of before and the interactive elements (flip the flap and pull the tab) will engage younger readers. Over all this is a pretty sturdy volume but do be careful since some of the pull tabs are a bit delicate and may not move back and forth smoothly...This is too nice a book to rip a page or tab so exercise some care. Collectors...check it out because this is a unique book!

I expected more with this book but my son does love that each letter of the alphabet has a flap that reveals the pop-up and the picture of a dinosaur and it's name. I wish the publisher had used a little more heavy cards stock pages because this is a delicate book.

PROS- Creative pop-up folding- Nice drawings- Engaging and attractive to children
CONS- Some flaps might be a little weak
Notes: I've had this item for a few months and it is still a favorite in the house. It is liked by both my soon 4-year old boy and my 11-month old one.

The first version we had of this book was loved to death, so we had to get another! Great for kids who love dinosaurs and amazing to hear them really saying the names with the alphabet.

I ordered this book for my six year old he loves it it teaches you how to pronounce the dinosaur names very informative book we read it every other night

My grandson loves dinosaurs and he called me today to tell me that he loves his new book!!
